

September 15, 2009

All,

I have been in the property management industry for approximately 18 years and I currently manage a variety of facilities. Such facilities include retail, commercial, non-profit locations and industrial sites. I use Mega Locksmith & Security on a regular bases and in truth, I can't say enough about the premium service I receive. In short, Mega Locksmith is highly responsive and they always provide quality service. Their pricing is also very reasonable. I would highly recommend Mega Locksmith to anyone looking to resolve their security issues quickly at a fair price.
